## Objective

---

Results-driven Endodontic Specialist with over 5 years of clinical experience in root canal therapy, CBCT diagnostics, infection control, and patient-centered care. Seeking to join a reputable dental facility where I can apply my expertise and contribute to delivering high-quality endodontic treatments.

## Experience

---

- Private Clinic Damascus** 2019 - 2025  
Endodontic Specialist
  - Established and managed a fully operational private dental clinic, including infrastructure setup, equipment acquisition, and patient scheduling.
  - Treated hundreds of cases using advanced endodontic techniques, including retreatment of failed cases and performing apicoectomies.
  - Implemented strict sterilization and infection control protocols, and maintained accurate patient records in both paper and electronic formats.
  - Balanced clinical practice with endodontic specialization studies, enhancing time management and long-term professional commitment.
- Daam Health Center Damascus** 2022 - 2024  
Endodontic Specialist
  - Accurately diagnosed cases of pulpitis and acute dental pain using advanced diagnostic tools such as digital radiography and CBCT imaging.
  - Performed root canal treatments utilizing rotary instrumentation systems and strict sterilization protocols to ensure high clinical success rates.
  - Collaborated with oral surgeons and prosthodontists to develop comprehensive and individualized treatment plans.
  - Documented all treatment procedures and clinical notes in electronic medical records while adhering to strict infection control policies.
- General Dentist** 2019 - 2020  
Rural Clinics Rural Damascus
  - Delivered comprehensive dental care to underserved populations, including restorations, extractions, and preventive treatments.
  - Diagnosed and managed acute dental pain, infections, and traumatic injuries in settings with limited equipment and resources.
  - Collaborated with local healthcare teams to ensure integrated care and referral when specialized treatment was needed.
  - Adapted clinical decision-making to challenging field conditions, demonstrating flexibility and resilience under pressure.

## Education

---

- University of Damascus Dental Hospital, Syria** 2018-2019
