## About Me

Recent dental graduate with internship experience at several centers. Skilled with general dentistry and patient care, and confident in clinical diagnosis. Looking to join a dental practice where I can continue to learn and contribute to quality patient care.

## Skills

- Strong clinical knowledge in general dentistry
- Excellent communication with patients and children
- Strict adherence to sterilization and infection control
- Familiarity with dental record software and digital tools
- Teamwork and time management under pressure

## Education

- Bachelor of Dental Surgery (BDS)**
