Summary

Frontend Developer with 1 year of experience in building responsive and scalable web applications using **JavaScript, React.js, Next.js, TypeScript, and Tailwind CSS**. Skilled in **state management** (Redux, React Query, Zustand) and modern UI/UX development. Experienced in **real-time applications with WebSockets**, performance optimization, and Agile practices

Professional Experience

Front End Developer

Mavoid

Oct 2025 – Present

Full time - Alexandria, Egypt

- Designed and developed **SEO-friendly** landing pages **optimized for performance and search engine visibility**.
- Implemented responsive** designs using **React.js, Next.js**, and Tailwind CSS to ensure **cross-device compatibility**.

Front End Developer

Eyego

Sep 2024 – Sep 2025

Full time - Riyadh, Saudi Arabia

- Resolved critical production issues** and **optimized application performance**, reducing page load time by 30%
- Led the frontend development** of an **AI-powered real-time tracking system**, implementing **Next.js, Redux**, and **WebSockets** for instant updates
- Designed & built an interactive multi-floor map** editor using **React + Konva**, enabling users to create/edit zones and visualize heatmaps.
- Developed a voice-enabled AI assistant UI** with **LiveKit + OpenAI** for smooth real-time conversations.
- Improved reliability** by implementing **Axios interceptors**, debugging **WebSocket flows**, and fixing backend integration issues

Projects

Travel & Tour Platform | Next.js | Tailwind | React Query | Prisma | PostgreSQL | Python (Aug 2025)

- Developed a full-stack travel booking system with secure authentication and dynamic trip management using **Next.js, Prisma, PostgreSQL**, and **React Query**.
- Built a real-time AI voice assistant with **LiveKit** and **Google Gemini** for intelligent responses, integrating **Deepgram** for speech-to-text and text-to-speech.

Najran Health Platform | Next.js | Supabase | GSAP | Tailwind CSS (Jan 2026)

- Developed a full-stack, bilingual (AR/EN) healthcare platform.
- Implemented advanced **GSAP** scroll animations with **canvas-based** video rendering for an immersive user experience.
- Built a role-based **admin dashboard** for appointment management and operational control. Integrated **Supabase** for authentication, real-time database operations, and **secure file storage**.

E-commerce | React | Redux | Tailwind CSS (Feb 2026)

- Implemented **secure authentication**-first checkout flows with order persistence and automatic user data autofill.
- Developed **real-time stock** availability, product search, and automatic stock restoration for cancelled/refunded orders.
- Enhanced e-commerce business logic including free **shipping rules** and **bundle inventory** handling.

Skills

Programming Languages: HTML5, CSS3 , JavaScript (ES6+) , Typescript , jquery

Frameworks & Libraries: React, Redux, Next.js, React Query, Zustand, Tailwind CSS, Bootstrap, SASS, Material UI, ShadCN, Framer Motion

Databases & APIs: SQL/MySQL, PostgreSQL, REST APIs

Tools: Git, GitHub , Docker
