Work Experience

Dental operator at Zsmile dental clinic 2024-2026

Currently, I am employed in a dynamic role where I bear full responsibility for a wide range of tasks, ensuring the smooth operation of the dental practice. My responsibilities encompass scheduling patient appointments, conducting thorough examinations, interpreting various types of radiographs accurately, providing accurate diagnoses, prescribing appropriate medications, time management, and managing the entire patient age spectrum.

- Proper diagnosis with different X-rays.
- Document every medical history.
- Restorative all classes [I, II, III, IV, V], selective caries removal, using dyes, composite veneer.
- Endodontic Treatment for any molar & Retreatment case.
- Pediatric procedure and management [pulpotomy, pulpectomy, restoration, stainless steel crown].
- Removable & complete dentures in four visits only.
- Schedule visits with the patient and keep in touch.
- Time management inside visit & between it.
